Art Unit: 3653

#### **DETAILED ACTION**

### Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

# Allowable Subject Matter

Claims 1 and 45-76 are allowed. Claims 2-44 were cancelled by the Applicant.

The following is an examiner's statement of reasons for allowance:

The Examiner considered Patent Number 4,697,803 by Kan et al to be the prior art most closely related to the Applicant's claimed invention. The sheet feed cassette disclosed by Kan fails to incorporate a trip mechanism that places a sheet condition indicator in mechanical communication with a push plate as incorporated in the Applicant's independent claims 1, 58, 64 and 72.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

# Inventorship

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

#### Conclusion

The following related art made of record and not relied upon is considered pertinent to applicant's disclosure:

Patent Number Us 6,826,383 B2 by Yano because of its sheet size scale 54.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark J. Beauchaine whose telephone number is (703)308-6336. The examiner can normally be reached on 8:00AM through 5:00PM Mondays through Thursdays.

Application/Control Number: 10/788,634

Art Unit: 3653
